LIFE INSURANCE.

No. 14, Exchange Street, PORTLAND.

LITTLE & BROTHER are Agents for the Mutual Life Insurance Company, of New York.

In this Company the whole of the net profits are divided personally among the insured, and the amount is endorsed on the Policy, and the whole amount is payable on the death of the party to his or her representatives, thus combining the advantages of a Saving Institution of the best kind with Life Insurance, by which those who are not wealthy may provide for their families, and capitalists find a safe and profitable investment.

The advantages of such insurance to the individual, to his family and to the community, are obvious. A person 30 years of age, by paying \$131 annually, may secure \$100 to his family should he die within the year, and one in his 40th year may do the same by paying \$169.

A young man 21 years of age, without capital, by paying \$90 may obtain a Policy for \$1000 for 1 year, and thereby procure means to begin business, purchase tools or a library, or complete an education. We have already made Policies for such purposes.

A creditor may give himself additional security for a debt due him by insuring on a debtor's life.

In England where investments pay not over 3 1/2 per cent per annum, the profits to assured have been very great, as the following will show, viz: a person at the age of 30 effected insurance on his life for \$1000, at the expiration of 30 years by the death of the insured, the accumulated profits together with the sum insured, gave his heirs about \$3000. In this Company the investments (already large) are now paying 5 per cent., and the probabilities that the results with this office will be equally favorable, if not more so.

No person having a family who is able to save \$1.00 per month, should delay a moment, to obtain a Policy at this office.

Any information that may be desired, can be obtained by calling on the subscribers.

June 25, 1844.

POLITICAL.

Mr McDuffie's Speech at Richmond Virginia.

Reported for the Express

(CONTINUED.)

Fellow citizens. (he went on to say,) When-

ever I addressed you upon the wrongs and outrages that unjust and unconstitutional Tariff laws impose upon you, I always resolve before-

hand to be calm and collected, and in no way to indulge in my feelings—but it is impossible to restrain them

Our cause is just—our union perfect.

WHIG NOMINATIONS.

FOR PRESIDENT,
HENRY CLAY,
OF KENTUCKY.

FOR VICE PRESIDENT,
THEODORE FRELINGHUYSEN,
OF NEW JERSEY.

FOR ELECTORS AT LARGE,
EDWARD KENT, of Bangor.
RUFUS K. GOODENOW, of Paris.

FOR GOVERNOR,
EDWARD ROBINSON,
OF THOMASTON.

Young Men, Attend.

THE Young Men of Bangor favorable to the election of CLAY and FRELINGHUYSEN, are invited to meet at the Clay Club Rooms on Wednesday evening next at 7 o'clock.

It is desirable to have a full and prompt attendance, as business of importance is to come before the meeting which must be attended to. Let every young Whig consider this a special invitation to himself, and be on hand accordingly.
July 9. Per Order,

Operation of the Tariff—Mr. Woodbury's Position.

Mr. McDuffie in his Richmond speech, and Mr. Woodbury in his Fourth of July speech, and opponents of Protection to home labor generally do the same, assume, that the duty on an article is so much added to the cost of that article to the consumer. This they declare to be the law; and upon this assumption they go on to reason and arrive at conclusions which every man who hears them speak, or reads their remarks, knows are not correct. This kind of reasoning do better to keep high up in airy speculations and the mystic region of hypothesis. But Mr. Woodbury came down to the earth and grappled with things—he wished to bring to a theory within the region of fact, and without examining what the character of the facts incontrovertibly were, he assumed they would justify the remark that axes and shovels and flat-irons were higher now than formerly on account of the duty imposed by the tariff. An appeal to the price current, or the books of the traders or mechanics, would have shown that this was not the case but that the articles enumerated have fallen rather than risen in price since the tariff of 1842. But the price current, the actual selling prices of articles are abominations to the free trade theorists. They hate them because they will not sustain their theory. A few facts will show the falsity of the position assumed that the duty on an article necessarily enhances the price of such article to the amount of the duty. The duty on cheese is nine cents a pound and yet the Boston price of cheese for the whole season together has not exceeded six cents a pound. The duty on printing paper is ten cents a pound, and ten cents a pound is the regular price for such paper in this market, and in Massachusetts it can be purchased by the ton, at nine and a half cents a pound. The duty on pig lead is three cents a pound, while the price of pig lead in Boston is three and a half cents a pound, and the price in Boston is four cents a pound. The duty on cut nails is three cents a pound, and the price in Boston is four cents a pound. The duty on cut tacks is five cents a thousand while the price in New York is only four and a half cents a thousand. So we might go on at great length in arraying facts, well known facts, showing the ratio and absolute falsity of the position assumed by Mr. Woodbury and other loco leaders that the duty on an article is so much added to the price of that article to the consumer.

This use of facts is frequently attempted by demagogic leaders of the loco party to be wrested from its appropriate object by their stating that the object of protection is to lessen prices. This is not true. This is false ground. This is a misrepresentation and a miserable humbug. The object of Protection is simply to secure the American market to the American farmers, mechanics and manufacturers at a fair producing price for those articles the growth and manufacture of which our country is adapted. Secure this market thus to American capital and labor, and home competition will supply the market at a fair producing price. This position the facts already adduced fully prove.

Those who oppose protection must by an inevitable necessity come to the conclusion that the foreign capitalists and the poor paid of foreign labor should be employed in preference to our own citizens, or that it is desirable that our own capitalists and laborers should work for less than a fair producing price. The effect of buying all our manufactured articles of foreigners is to give foreign capitalists a monopoly of our market, which will enhance prices of their manufacture and lessen the prices of our agriculture.

will make them rich and our people poor. In this way: In agricultural productions most of the work must be performed by manual labor. It costs about the same to produce the second or third or fourth hundred bushels of potatoes, or rye, or wheat, or corn, that it does to produce the first. Not so in manufactures generally. Get the machinery set up and in motion and at every succeeding hundred or millions of articles there is a diminution in the cost of production. If any given quantity of production be considered a day's work, it will be seen at once that a small nation of men may, by the use of machinery become a vast nation in production. A few wheels and screws, bits of iron and wood a leather band and a ratchet may be made to represent and receive the daily wages, in a foreign country, without a countervailing policy on our part of a hundred sturdy free God-gifted American farmers!

But suppose we allow these opposers of protection to say they do not wish to force all our manufactures to be done in Europe. What then is the inevitable result of their policy on our own people by denying them protection sufficient to secure them the market at a fair producing price? Precisely this—That our capitalists and workmen shall labor for less than a fair producing price. The consequence of this will be, if they continue so to work, first to cause the capitalist to lose at every succeeding change a portion of his capital. If he lose ten per cent a year, in ten years it is all exhausted. Then the loss must fall on the laborers, even if they have not had to share in the previous losses of the capital. The laborers at length become exhausted. They must leave the business and crowd other professions by engaging in their business. Thus there is introduced a depressing system of one class falling upon another, like a row of bricks set on edge and one tumbled against the next throwing it down upon the next until the whole is brought down. To what low level of poverty and dependence this system if introduced and continued in this country, the people may be brought we know not and desire not to know. We trust in God there is intelligence and virtue enough in the people and enlightened self-interest enough in them to avert so great a calamity. There is no security against this depressing and ruinous policy if the present effort of partisan leaders to elect James K. Polk shall be successful.

We have not done with this subject yet.

Price of Wheat.

The Chicago Prairie Farmer thus discourses to the numerous wheatgrowers in that region: "Unless there should be some failure of the Wheat crop now looked for, we think no higher prices need be expected. From every quarter we notice the reports are, that wheat is likely to come in luxuriantly. We can but repeat the opinion we have before expressed, that the price of wheat is to be lower for years to come than for years back in proportion to other prices, for the sufficient reason that there is so much more produced. The folly of exclusive Wheat-raising is too apparent."

The Artful Dodgers!

At a recent Locofoco Convention in Vermont where the doctrine of Protection is so popular, one of the banners displayed this lying inscription:

"POLK AND PROTECTION AGAINST CLAY AND ANTI-PROTECTION."

Well may such artful dodgers dread the fate which awaits them from an indignant and outraged people!

¶ We continue to day the publication of Mr. McDuffie's speech delivered at Richmond Virginia. We ask for it an attentive perusal. It should be read by every freeman by every Northern Farmer, Mechanic, and Vaborer. It should be read by every Northern woman, for she too receives his notice. Ponder upon the true policy involved in the election of James K. Polk to the presidency and say if you are willing the power of the government shall be placed in the hands of those who will use it in opposing your interest as though you were plunderers and robbers.

¶ In one of the eastern towns in our State a meeting of the loco party was called by hand bills posted at the corners of the streets headed in large letters 'Young Hickory.' The meeting was not very fully attended and on inquiry of the leaders the next morning as to the cause, they were astonished to find a general complaint of want of notice. "Why, didn't you see the bills posted about the streets headed Young Hickory?" "Why yes indeed, we saw those bills every where but we thought they were Horse Bills."

¶ The Democrat in trying to crack up the late Fourth of July gathering in this city claiming the whole collection in behalf of its Convention now tries to make it appear that it was not designed as a State Convention. The previous numbers of its paper and the flaring Hand Bills issued prior to the meeting give the lie to such a pretence.

¶ The young men of Bangor who are in favor of the election of Henry Clay to the Presidency are one and all reminded of the meeting notified to be held at the Clay Club Rooms this evening. Let the young men attend their own meeting and conduct it in such a manner as shall best contribute to the great result.

¶ Hezekiah Williams, Esq., has been nominated for Congress in the Seventh Congressional District by a loco Convention. One of "the family" in Hancock County calls Mr. Williams a fourth rate Lawyer.

Thompson's Reporter contains the following important intelligence:
We issue the Reporter a few days in advance, in order to guard our subscribers from a number of the most dangerous frauds that have ever been passed upon the public.
It appears that some years since the die, vignettes, denominations, &c. &c. of the bank note engraving house of Durand & Co., were sold at auction, and now they have fallen into the hands of counterfeiters, who are manufacturing counterfeit bills on banks in every section of the country. The engraving being of a superior order, there is but little difference between the counterfeit and genuine notes, and in some cases it is impossible even for good judges, to say with certainty which are good and which are bad.
Fifty dollar notes of the old broken "Citizens' Bank of Augusta, Maine," have been altered to the "Taunton Bank, Mass., and 'Taunton Bank Newport.' They are exceedingly well done, and the alterations are discernible only by holding them to the light. The frauds have for a vignette a female, an eagle and an urn—an effort has been made to counterfeit the names of the officers of the Banks on which they purport to be.

Seven hundred dollars of these frauds were taken by one of the Maine banks and sent to Boston, where they passed one bank and went to the Suffolk, before being discovered.
Murder of Lieut. Molesworth and Seven Seamen.
CAFE OF GOOD HOPE, April 16.—Her Majesty's ship Cleopatra has arrived at Simon's Bay, having struck on a coral reef on the coast of Medges, 21st of March, and while weighing the kedgie (which had been used to warp her off) on the 23d, Lieut. Molesworth and seven men were killed by the natives. This was brought on from two or three of the natives having been forcibly turned from the boat while endeavoring to steal some of the stores.

Fatal Accident.

The Boston Transcript of Saturday says—We learn from one of the conductors on the Lowell Railroad, that a serious and fatal accident occurred at Haverhill, New Hampshire, on the 4th of July. A large number of ladies and gentlemen were upon the Piazza of a house in the village, to witness the passage of the procession, when it suddenly gave way, from the great weight upon it, precipitating the whole party to the ground, killing three ladies, and severely wounding several other persons. The names of the persons killed, our informant did not learn.

¶ A correspondent of the New York Express says that Captain Tyler's determination to run as a Presidential candidate, in any event, has produced at last an effect upon the Democratic party, which disposes them to offer terms. Accordingly, it is stated that if the Captain will withdraw, and use the patronage of the Government to advance the election of Polk, he shall have, in case the democracy succeed in carrying the election, any foreign mission he may select—the one to England, for instance—which would be very gratifying both to his vanity and ambition, and his late marriage may operate greatly to induce him to consent to this brilliant arrangement. He will naturally desire to present his bride at the Court of St James, and I understand she is every way qualified for the position. Besides, the outfit and salary is by no means a contemptible consideration.

Illinois Loan in London.

A letter from Mr. Oakley, the commissioner, states that a contract has been arranged for the loan so long talked of, and that the papers are in the hands of the lawyers to arrange. What the terms are is not stated, but appear to have been satisfactory to Mr. O., as he had taken his passage home in the steamer of July 4th.

¶ There has been an insurrection at Monseerat amongst the blacks. They had burned several plantations. Many of the blacks were killed. The cause of the insurrection was found to be in taking the census of the Island; the blacks thinking that they were to be made slaves again.

The Mormon war has all "fizzled out," for the present.
The streets of New York are said to look desolate in consequence of the general departure of those who are able, in search of fresh air and health.

¶ Bricks are very scarce in New York, and demand a high price.
For the Whig & Courier.
Card.

We cannot leave you without expressing cordial thanks for filling our money Bag, which is ample proof of interest in the "Factory Girl's Magazine."

Our Portland friends will not be surprised; their prophecy has proved true that "Bangor folks are very liberal and will out do us in encouragement towards your Magazine." The good opinion of one of the sis erhood will be fully confirmed by the reception of cash, which will no sooner be received, than deposited in the circulating bank in which almost every one has a share.

We humbly crave pardon from patrons where we may have too impudently and assure them "Odd Fellows." (We don't mean of the "Order,") should they visit the "City of Spindlers," they might find some "Offering Girls" who they would give a dollar to see, rather than one dollar to get rid of them.

We wish it was in our power to give some memento other than feeble words to those of the three establishments who gave us twenty-four names, and to one who gave twenty-two. The latter were all mechanics in the shop of H. &

intelligent, energetic and patriotic men; should we have occasion to select in their line of business, or solicit subscribers, we shall give them a call.

North Bangor and Orono folks bestowed on us a great share of liberality, not only by giving their names, but in showing us the utmost hospitality and kindness which will ever be kept in remembrance.

With respect and good wishes the patrons of the Lowell Offering, we now bid farewell.

FACTORY GIRL.

Fourth of July at Ellsworth.

To the Editor of the Whig & Courier.

I had the pleasure of spending the late anniversary at this thriving and beautiful village, and the idea I would give you of the enjoyment I met with there, is best expressed by my own ardent wish: may I see a thousand such.

The morning of a bright and beautiful day was occupied in witnessing the presentation of a standard by the citizens of Ellsworth to their fine company there—the Hancock Cadets—the style of the performance was such as to afford a model to people whose cities cover a larger area and reflected credit on the taste of those engaged in the affair. At 11 o'clock, the procession was formed at the American House and proceeded under the escort of the Hancock Cadets, to the Congregational Church, where after an impressive prayer from the Rev. Mr. Tenny, the Declaration of Independence was read by L. F. E. Jarvis, Esq. and an Oration pronounced by John A. Peters, Esq. of this city. The procession was then re-formed and returned to the American House where they sat down to a sumptuous dinner prepared by Mr. Tinker, and the cloth removed, the walls echoed to the applause that followed many a lively rally. Speeches were made by various citizens and strangers, every thing passing off without an accident of any kind to mar the harmony of good feeling that was found to prevail.

In the evening there was a ball given by the gentlemen of the company mentioned, where might be seen much of the beauty and talent of Hancock—a display which any other county of the State would be proud of. The same good fortune prevailed here. People were constrained to be happy, whatever might be their private inclinations in the matter, and so they went on till daylight admonished them that as sixty eight years and one day of their Country's Independence had elapsed, they might be suffered to depart, pleased, to their homes, and so close a happy occasion.

There was no mistake about the positive enjoyment of the time. If any true, good, witty, sensible citizen doubts it, why then, next time, "May he be there to see."

MARINE INTELLIGENCE.

PORT OF BANGOR.

ARRIVED.
July 9.—Schr. Satevia, Staples, New York, with flour and corn to Wm. H. Dow, and others.

NEW PRINCIPLES OF PURGATION.
CORNARO'S
Purifying and Preserving
PILLS.

THE American public has for a long time been
the victim of a false and dangerous system of
medicine founded on the practice of LONG CON-
TINUED AND UNRELIEVED PURGATION. The evils of this old system are of the most wide-
spread and alarming character. They have reach-
ed through every vein and artery of our nation.—
In every city, and village, and hamlet—in every
State and Territory of our vast Republic, will be
found those who have suffered, or who are still suf-
fering from the injurious effects of this old system,
of whose practical utility the disease, decay, and
utter prostration of those who test it furnish the
most convincing proofs!

COMMON DRASTIC PURGATION
Scours out the system by the most improper and
violent means, and then leaves it, weak, low, feeble
debilitated, to regain its strength as best it may.—
Sometimes the consequences of this old Purgative
practice are worse than mere Debility. Inflamma-
tion of the Bowels, Slow Fever, Bloody Piles, and
other horrible disorders are produced, simply from
the want of some enervating and preserving power
in the medicine employed. Sometimes the diges-
tive organs are deeply and permanently injured by
this coarse and unphilosophical practice, leaving the
patient AN INVALID FOR LIFE.

The alarming evils and absurdities of the old system
of Purgation, have led to the introduction of a new
Life-giving Medicine, called CORNARO'S PURI-
FYING AND PRESERVING PILLS, which are
established on this new and only true principle of
Purgation, viz:
NO PURGATION WITHOUT IMMEDIATE
RESTORATION.

The use of this admirable Purgative remedy
strikes a death blow to that abominable system,
which by continually evacuating the bowels with-
out any conservative or saving power, so dreadfully
and fearfully prostrates and injures the unhappy pa-
tient. These Purifying and Preserving Pills are
believed to constitute the perfection of medicine,
being a UNIVERSAL VEGETABLE PURGA-
TIVE, containing two great remedies combined
viz: One remedy to PURIFY FROM CORRUPTI-
TION, and another to PRESERVE FROM INJURY
AND DECAY.

And for the purpose of attaining the highest de-
gree of purity in the preparation of these Pills, Dr.
Bradlee has, at a vast expenditure of time and
money, invented and patented at Washington, a
chemical and philosophical apparatus for distilling
and refining vegetable extracts, called
THE SEVEN-FOLD FURNACE.

A powerful and novel machine—having Seven Fires
and Seven Alembics, with distilling, condensing,
and evaporating fixtures of a new and ingenious
contrivance, capable of obtaining more than seven
times the ordinary purity of any vegetable extract
heretofore used in compounding medicine. The
Balsamic and Preserving power of these Pills is
also, by this invention, highly purified and refined,
and so mingled with the operative medicine, that it
repairs all the injuries created by Purgation as soon
as they are caused, and strongly fortifies the sys-
tem against future corruption and decay.

Let the public be no longer deceived by the ad-
vertisements of the "one remedy" doctors, who show
their entire ignorance of the organic laws of the hu-
man system by supposing that a medicine which
purges merely, without renovating or preserving, can
be a perfect remedy. For it is a fixed and immuta-
ble law of our being that there should be, in no case,
Purgation without immediate Restoration; and hence
it follows, and is proved to demonstration, that all
Purgatives which DO NOT possess a saving and
preserving power, are injurious and injurious only—
and possess NOT ONE REDEEMING QUALITY.

The whole theory of common drastic Purgation is
based upon unnatural and absurd laws, and they who
follow it fall victims to their own folly, and too late
repent their temerity.
**BEWARE OF UNRELIEVED PURGA-
TION!** Purge and Preserve, or do not attempt to
Purge at all.

The celebrated PURIFYING AND PRE-
SERVING PILLS, purify the body from corruption
and preserve it from injury and decay by a single
operation. They are a Universal Vegetable Pur-
gative, of sovereign use in all diseases of the human
system in which purgation is required, particularly
in Jaundice, Indigestion, Dyspepsia, Eruptions of the
Skin, Scrofula, Piles, Costiveness, Bilious Disorders,
Liver Complaint, Fevers, Nervous Disorders, Inward
Weakness, Cholera, Dysentery, Worms, Gout, Rheu-
matism, Female Complaints, Depression of Spirits,
Debility of System, Fits, &c., &c.

Price 25 cents per Box, with full directions,
Essay on Health and Long Life, &c.

Indian Vegetable Pi
OR INDIAN PURGATIVE
THOUGH many medicines have been
the public for a much longer per-
Wright's Indian Vegetable Pills, yet now
now in higher repute, or has more rapidly
a firm hold upon popular estimation. It
stands that have used them throughout th
and breadth of the Republic, all bear chee-
timony to their thorough efficacy and miti-
tion, when employed in the most distressi-
ders which 'dread is heir to.' To those, I
who have not used them, who are sufferi-
incipient or advanced stages of disease,
are looking round for weapons wherewith
bat the Destroyer—intelligent inquirers, I
be satisfied with the theory and principle of
of medical treatment, before they commec-
comes necessary to make a few prelimi-
marks on this invaluable medicine.

The theory of disease on which WR
INDIAN VEGETABLE PILLS are fo-
this, viz: That there is only one primary
all the disorders which afflict the huma-
and that is corrupt humors—or, in other w
purity of Blood. This principle is now so
admitted, that it may in fact be said to be
by a universality of opinion—the few c
constituting but a very feeble minority. I
less, therefore, to discuss the soundness of
ory in this place and connection.

The ONE DISEASE PRINCIPLE bein-
ted, the mode of attack professed by all p-
ers becomes the same, viz: Purgation. E-
of the so called specifics now before the pu-
duce only one form of purgation; they are
Sudorific, Cathartic, Diuretic or Expec-
Wright's Indian Vegetable Pills combine
properties, and are therefore calculated t
the elements of disease at all points, and
monious and combined operation, to expel
cally from the system. Their effect is ain-
ical, and is no less astonishing for its mild
its efficacy. Both sexes and all ages ma-
them, according to the direction without
while they are certain to cure ALL DI
that are remediable, they never inflict an i-
on the system.

The ORIGIN of this invaluable medicin-
it to unlimited confidence and respect. T
we approach to nature, in our researches a
both in science and art, the more complet
our success in both. Look at the uniform
condition of the Indian Tribes of this c-
whether exposed to the frosts and storm
North, or to the rain, heat, and pestilencia
of Southern climate. Houseless, unprote-
posed to every atmospheric change, every
of the seasons, dwelling at times in mor-
by the margins of unhealthy pools, and
they yet enjoy an almost total immunity
ease, while the white man, who enjoy
comforts of civilization, with its attendan
as much inferior to the savage in physical
he is superior to him in intellectual acqui-
How does this happen? Simply because,
the light of science, he relies upon that
stict which impels him to select from the
of the field and forest those remedies whi-
and Nature's God has bounteously provid-
solace of suffering—and the mitigation an-
disease—sowing them broadcast on every
valley. Let those who impiously arraign
justice of Divine Providence, and point wi-
to the multitude of invalids who lie gro-
beds of sickness, turn from the false light
and study the secrets of nature, and they
that mercy which has so bountifully provi-
for every wound—a remedy for all who see

These Pills, as we before remarked, op-
purgation—by thoroughly cleansing the s-
tem from all impurities, and making the
the homely but expressive phrase, "a ne-
whether the disease is INCIPENT CO-
TION, which insidiously attacks the L-
ducing that dry, hacking cough so painf-
friendly ear, or Cutaneous, showing itself
skin in eruptions or blotches; whether th-
or the Bowels be affected—Wright's Ind-
table Pills are equally efficacious in all
dangers. Their expectorant, cathartic,
and diuretic qualities enable them to tak-
each form of disease.

The perfect safety of the medicine is a
important quality, and one which has oc-
more than any thing else its extension
larity.

In a word, this medicine commends itse-
ly to the patronage of the public, and its
fair to become, before long, ALMOST U-
SAL.

CAUTION:
The citizens of New England are re-
informed that, in consequence of the pre-
ity which Wright's Indian Vegetable P-
earned, by their astonishing goodness, i-
Counterfeiters are now industriously at-
tempting on the unsuspecting a VALUE
perhaps dangerous medicine, under the
Indian Vegetable Pills.

BEWARE OF A. L. NORCROSS
lowell, Maine, who is selling COUNT
PILLS.
This is to inform the public that the gen-
ine has on the boxes—
"WRIGHT'S INDIAN VEGET-
PILLS."
—Indian Purgative—
OF THE NORTH AMERICAN CO-
OF HEALTH.

And also, around the border of the lab-
found in small type—
"Entered according to Act of Congres-
year 1840, by William Wright, in the Cler-
of the District Court of the Eastern D
Pennsylvania."
The public will also remember, tha-
selle the genuine Indian Vegetable Pills
ded with a certificate of Agency, signed I
WILLIAM WRIGHT, Vice President
Of the North American College of th-
And that pedlars are never in any case a-
sell the genuine medicine. All travel-
will be provided with a certificate of a
above described, and those who cannot
will be known as base impostors.

The following highly respectable pers-
been appointed Agents for the sale of t-
named
Wright's Indian Vegetable P
OF THE NORTH AMERICAN COLLEGE OF
AGENTS.
